India (91+) 9400899464

Summary

Product Designer with experience designing workflow-heavy products across education, compliance, sports tech and operational systems.

Skilled in translating complex requirements into intuitive user experiences through workflow design, prototyping, stakeholder collaboration, and design systems.

Experience

Turbostart - Associate Product Designer

Dec 2024 – Present

- Led end-to-end design for workflow-heavy products across admissions, learning management, compliance management, student lifecycle alumni engagement, and sports registration domains.
- Designed workflows, onboarding journeys, administrative systems, and conversion-focused program landing pages and engagement initiatives across 10+ institutional clients.
- Designed registration and verification experiences for a sports-tech platform managing player onboarding and eligibility validation.
- Collaborated with product managers, founders, developers, sales teams, and clients from discovery through implementation and design QA.

Awign - Product Design Intern

Jul 2024 – Dec 2024

- Supported product design initiatives through wireframing, UI design, and design reviews for workforce management solutions.

Bblewrap Innovations - UI/UX Design Intern

Mar 2024 – Jul 2024

- Conducted user, competitor, and market research to define website structure, content strategy, and user experience for a packaging solutions platform.

Touchworld Technologies - UI Design Intern

Aug 2023 – Oct 2023

- Designed interfaces for an eyewear e-commerce platform and administrative dashboard experiences.
